

Dear Member,

You all may be aware that 'The Black Money (Undisclosed Foreign Income And Assets) and Imposition of Tax Act, 2015 has been enacted. The act has provisions that primarily deal with Black Money that is undisclosed in the form of foreign assets and income.

It is now for us as a professional to decide whether the new act is a mere compliance or is a new professional opportunity? On over view of the act it appears that while complying with the provision of this new act one has to take care about several other acts like FEMA or Income Tax Act. We therefore believe that a reasonably fair professional opportunity is inbuilt under this act which all professionals should grab.

With this broad object in mind we have organized a lecture meeting which is scheduled as under.
